

Not Powerless (Pray)

Darren Hamilton (DMH Music Publishing/SOCAN)

Verse 1

You have been going through your storm
Wondering when the sun will shine
The pressures of life seem so unbearable
And all you can do is
Hide in your room and shut the door
'Cause you just can't deal with life no more
The issues are way beyond control
And giving up seems like the best resort

Chorus

It doesn't matter
What it looks like
You've got power
This doesn't have to be the end
Things might seem hopeless
And you've accepted that you're hands are tied
But remember
You're not powerless
You're not powerless

Verse 2

Your life has been plagued with so much pain
And you just can't seem to overcome
You wonder if God will ever come through
It seems like He's left you alone
The burdens of sickness, sin and shame
Surround you and you can't seem to gain
Victory over your past, your present,
But there's hope for the future.
